

VERIO: WEB HOSTING'S MOST TRUSTED NAME.

VERIO
An NTT Communications Company

Considering how critical the Internet is to your business, selecting a partner you trust must be a top priority. You want the peace of mind that comes with knowing you've teamed with specialists — experienced professionals who can deliver the guidance and support you need through each phase of your growth.

To date, over 500,000 companies have placed their trust in Verio. Here's why.

Unsurpassed expertise

Verio focuses solely on turning on the power of the Internet. From the moment you secure a domain name and every day after, regardless of how simple or complex your Web hosting challenges become, Verio delivers the products and services you need. Experts assist you with every step. You can trust your sites will run smoothly, so you can remain focused on developing the products and programs that set your company apart.

World-class infrastructure

Verio is recognized around the world for its technology excellence and a legacy of excellence dating back to 1996. In 2000, Verio and NTT Communications, the world's largest telecommunications company, joined forces to form one of the world's leading IP service providers. At the core of the company, a Tier-1 global IP network designed exclusively for Internet data transport provides our customers the most reliable high-speed infrastructure anywhere. The network is monitored around the clock at our state-of-the-art network operations center in Dallas, Texas.

Customer care

Verio delivers an uncompromising commitment to service. In fact, NTT has been recognized by Telemark as "Best in Class" for customer support for the last two years. Every hour of every day, our trusted advisors are available to you, offering world-class customer support to maintain the uptime you're guaranteed.

Custom solutions

Verio will help you create custom solutions to satisfy unique application requirements, site needs, and marketing objectives. We can work directly with you or another developer to deliver services including maintenance, content management systems, database development, e-commerce application development, Website migrations, and more.

Selection and scalability

Verio delivers the service you need when you need it. We avoid selling you programs to grow into, opting instead to deliver a practical solution that allows you to get the most for your money and to upgrade on demand. Our highly scalable Web hosting programs span all popular operating systems, include the most robust set of complementary tools, and offer affordable pricing plans based on your capacity requirements.

Verio Solutions

WEB HOSTING

Verio offers robust hosting plans featuring a vast array of features.

- **Unix Hosting** – Multiple plans include free setup, free domain name registration, Web mail, site building, marketing tools, and more.
- **Web Servers for Windows** – Our lineup of plans features MultiSite subhosting technology with abundant controls, native .NET support, Verio FairShare technology, and email serving.
- **Virtual Private Servers (VPS)** – VPS plans, which were invented by Verio, deliver multiple “virtual” servers with the use of a single physical server. Each VPS is fully isolated with its own file system, processes, users, applications, and resource allocations for customized configurations.
- **Managed Private Servers (MPS)** – MPS plans provide a dedicated server and fully managed Web hosting capabilities for maximum performance and reliability.

SITE DESIGN & MARKETING

Verio offers a dedicated team of design professionals who can work with you to help turn your vision into a reality. We also offer affordable online marketing services to help attract customers to your site.

E-COMMERCE

When you're ready to add e-commerce functionality to your site, Verio is ready to make the process simple. Verio's Web design professionals will design your online store and quickly have you fulfilling orders. We use the ShopSite shopping cart solution, available for Unix and Windows, which provides great flexibility for offering your products the way you want.

Our Platform Is Designed to Grow with Your Customer's Needs
